

Vetch Agronomy Focus Day

WHEN: Friday, 18th September 2026

TIME: 8am for 8:30am, concluding 12:30pm

Grain Orana Alliance (GOA) invites growers, agronomists and advisors to attend a **Vetch Agronomy Focus** morning. The field walk and in-paddock workshop will visit two locations and address the opportunities and challenges of vetch in the farming system, covering vetch agronomy, variety selection and local trial data.

Site 1: Binginbar Farms, Gollan

The Simpson Family of Binginbar Farms at Gollan are currently managing 1200ha of vetch across grazing, hay and grain production.

Site 2: NSW Pulse Project Research Site, Wongarbon

The event will conclude at the vetch variety trial (part of the GRDC NSW Pulse Project) hosted by Maurie and Kate Street and managed by GOA.

You will hear from:

- **Kirrily Condon**, Agronomist, Grassroots Agronomy, Junee
- **Kendra Kerrisk**, Grower, Ganmain
- **Simpson family** of Binginbar Farms, Gollan
- **Rohan Brill**, Brill Ag Agronomy & Research
- **Grain Orana Alliance (GOA)** team

Friday 18th Sept 2026, 8am for an 8:30am start. Finished by 12:30pm.

This field walk and workshop is part of the GRDC NSW Pulse Project *“Development and extension to close the economic yield gap and maximise farming systems benefits from grain legume production in NSW”*

No cost to attend. **Coffee cart and morning tea provided.**
